Copy of letter dated 16th April, 1954, from Sri S.Nijalingappa, M.P., No.13, Canning Lane, New Delhi, to the Chief Minister, Madras State, Madras,:-

---

Dear Sir,

I am enclosing a copy of the letter I have addressed to the Chairman, Planning Commission, New Delhi, regarding the implementation of the resolutions passed by the Malnad Conference on April 6, 7 and 8, 1954 at Shimoga.

I am writing to request that your Government will kindly have the resolutions examined with a view to recommend to the Planning Commission necessary schemes for the development of the Malnad areas in your state.

(True copy)

Copy of letter dated 16th April, 1954, from Sri S.Nijalingappa, M.P., to the Chairman, Planning Commission, New Delhi:-

-:-

Dear Sir,

Please find enclosed copies of the Resolutions passed by the Malnad Conference at Shimoga in Mysore on April 6, 7 and 8, 1954. I am also enclosing a copy of my Presidential Address. Together, they give you a fair idea of the handicaps under which that area is suffering from, inspite of its natural resources. The biggest handicap is transport.

I would like to draw your kind attention in particular to the necessity of setting up a Central Malnad Committee or Commission, which could send its recommendations as to how best this area could be developed. It is possible that the Committee may be able to give its report within about six months. The Planning Commission would be able to decide on schemes which could be taken up immediately within the framework of The First Five-Year Plan, now running as also include them or continue them in The Second Five-Year Plan.

The Conference has authorised me to set up a standing Committee for Malnad. This Committee may begin work in about a month and will be submitting their recommendations from time to time. In the meanwhile, I very earnestly urge that you may kindly have the various schemes suggested by the Resolutions examined, and have at least the most important ones included in the Plan.

THE ALL INDIA MALNAD CONFERENCE, SHIMOGA.

8--4--1954.

RESOLUTION NO. VIII.

-:-

This Conference is of opinion that:--

(a) The Government of India must establish Paddy, Cardamom and other Malnad Products' Research Stations;

(b) Soil Survey and analysis in Malnad with a view to suggest a proper scheme of crops for the different areas and seasons;

A

(c) Establishment of Cattle-breeding stations in Malnad

(d) To give protection to Match Factories in Malnad and aid to enable them to survive and carry on independently of big monopolists concerns; and

(e) In the matter of providing educational facilities and establishment of hospitals and Health Centres, the expenditure incurred should be shared between the Centre and State Governments instead of making these three items of expenditure the responsibility of the State Governments only.

Moved by: Srimathi Rathnamma Madhavarao.
Seconded by: Sri Lingappa.

THE RESOLUTION WAS PASSED UNANIMOUSLY.

Subject:- Cattle-breeding Stations - Establishment of in Malnad areas.

Sir,

UNDER SECRETARY TO GOVERNMENT
6 - JUN 1954
AGRI

I am forwarding herewith an extract from the Resolution of the All India Malnad Conference held at Shimoga on the 6th, 7th and 8th of April last, inaugurated by our Union Food Minister, Sri Rafi Ahmed Kidwai, I wish to request you to be good enough to take up at a very early date, the question of starting of Cattle-breeding Stations in some places in the Malnad area of your State. As the location of the station will naturally depend upon so many factors, the matter is left to your goodself to decide after getting the same investigated by those who are competent to undertake the work. To start with, I request you to arrange

to establish at least two such stations in your State.

I shall thank you for acknowledging the receipt of this letter and to be good enough to keep me informed of the progress achieved in the matter.

Yours faithfully,

Chairman,
Standing Committee.

The Resolution was passed unanimously.

Resolution No. VII.

This Conference resolves as follows :—

(a) In the opinion of this Conference, the development of the Malnad Districts is also dependent on the well-being and development of the Coffee Industry which affords employment to lakhs of labourers and thousands of educated men and earns several crores of rupees by way of taxes to the Central and State Exchequers and foreign exchange from Exports and as there is vast scope and possibilities for further extension of this valuable National Industry, this Conference requests the Union Government to give due importance to the development of the Coffee Industry by including the same in the next Five-year plan.

(b) To permit immediately, the Export of Surplus Coffee remaining over and above the requirements of normal Indian consumption in order to avoid deterioration in quality and to take advantage of remunerative Export prices in the International market.

(c) To appoint an Enquiry Committee consisting of experts and non-officials to consider the various aspects of the Coffee Industry and its future development.

(d) To provide loans at reasonable interest to the Planters in the matter of construction of Labour and Staff Quarters on the Plantations as per Government specifications.

(e) To continue the present Indian Coffee Board functioning under the Coffee Market Expansion Act as a Democratic Organisation that was originally initiated

To
The Deputy Secretary to Government,
Agriculture Department,
Madras.

Sir,

103871 K

Sub: All India Malnad conference exhibition held on April 6,7,8 of 1954 at Shimoga--Resolutions.

Ref: i) Government Agriculture Department Memo.No. 70352 CI/54-1 dated 29-5-54.
ii) Government Agriculture Department Endorsement No.70352.CI/54-2 dated 15-6-54.

I submit that although there is scope for establishment of cattle breeding stations in Malnad areas of South Kanara District by virtue of the existence of large areas of Pasture lands, forest areas and good water supply, a very heavy rainfall, a very poor soil, difficulties of approach to these areas not to speak of transport facilities and distance from towns make these sites unsuitable for starting cattle breeding stations so far as the Malnad areas of South Kanara District are concerend. Perhaps the Malnad areas of Mysore State with less rainfall and a richer soil may be better suited for the purpose.

A cattle breeding station has been established at Koila-a malnad area-in South Kanara District and the experiences gained and the results obtained in the Farm should offer sufficient data for deciding the question of suitability of the Malnad areas of South Kanara District for organising more cattle Breeding Stations.

Meanwhile intensive application of the existing schems of cattle development sponsored by Government such as free bull distribution scheme, premium sch me etc appear to be the only possible alternative for livestock Development in the Malnad areas of South Kanara District.

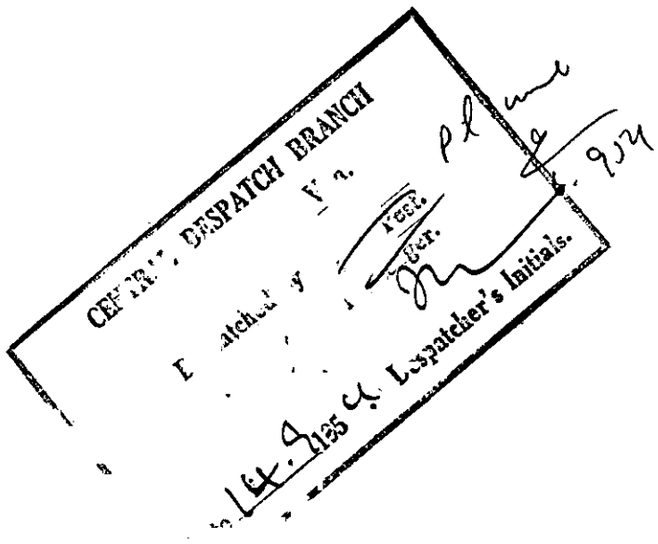
Agri. (C.I) Dept.



Letter No. 70352 CI(54)-4.6.8-54

To
Sri S. Nijalingappa, M.P.,
Chairman,
All India Malnad Conference,
Shimoga.

Sir,

Sub: Livestock - Establishment of Cattle breeding farms in Malnad area, South Kanara District:

Ref: Your letter dated 30-5-54:

...

I am directed to state that the Govt. have examined the question of opening Cattle breeding farms in the Malnad Area of the South Kanara District referred to in your letter. A livestock farm has already been established at Koilam in South Kanara District, and the experience gained as well as the results of the working of this farm have to be watched further so that data thus obtained and examined carefully before deciding how far it will be practicably possible to open any more farms in the District.

2. Further, though there are pasture lands, forest areas and good water supply in the area, yet, on account of the very heavy rainfall and poor soil, and the difficulties of approach to interior areas, and the lack of transport facilities, besides their distance from town, render the question of selecting suitable sites very difficult for considering Cattle farms. It is considered that the

Malnad Areas of the Mysore State with less rainfall and better soil ~~may~~ might be more suitable for the purpose.

I am to say that however, Government are doing their best ~~towards~~ for the development of cattle in the Malnad areas in the South Kanara District by intensive application of various schemes such as male stock distribution scheme, the premium scheme etc.

Sub: Livestock - All India Malnad Conference held on April 6, 7 and 8 1954 - Establishment of Cattle breeding Stations at Malnad

---

Ref: 1) Govt Memo No 70352 CI 54-1 dt 29-5-54.

2) From the D.A.H letter I Dis 270 1/54 dt 28-7-54

At the All India Malnad Conference held on April 6, 7 and 8 of 1954 at Shimoga one of the resolutions passed was for the establishment of Cattle breeding Stations in Malnad.

2 The D.A.H who was consulted in the matter has stated that although there is scope for establishment of Cattle breeding Stations in the Malnad areas of S. Kanara Dist by virtue of the existence of large areas of pasture lands, forest areas and good water supply and very heavy rainfall, they are not quite suited for the opening of livestock farms on account of the very poor soil, lack of transport facilities etc
